Quick Listen: Scrip's Five Must-Know Things

by [Ian Haydock](#)

Join us for a quick audio roundup of five useful things to know from *Scrip's* recent coverage of the global biopharma industry.

A new bite-size podcast provides a brief audio tour around Scrip's Five Must-Know Things, starting off for the week ended 19 July.

This time we provide easy to digest updates around Operation Warp Speed, diversity in the biopharma industry, shifting commercial models, new results in psoriasis, and the future of cell and gene therapies.

Stories mentioned in this podcast:
